Who We Are

Spectrum is a leading human services provider for adults with intellectual and developmental disabilities enrolled in the Colorado Home and Community-Based Services for Persons with Developmental Disabilities (HCBS-DD) waiver.

What We Offer

Family Caregiver (FCG) Services

Remaining in the family home to be cared for by loved ones is the optimal setting for many clients. Spectrum creates a flexible schedule based on each individual and their family's needs, desires, and unique situation.

FCG services and supports can be performed in a variety of ways:

- A paid family member
- A service provider coming into the home to help
- A combination of the above

Family members who become paid providers through Spectrum receive required training, all paid for by Spectrum at no cost to them.

Independent Living Services

Spectrum offers services to individuals who have the skills to independently accomplish most aspects of daily living without on-site assistance.

We provide supports, according to a schedule based on an individual's unique or personal goals, to ensure that they live the most meaningful life.

Our staff offers daily phone check-ins as needed and is available 24 hours in the event of an emergency.

Host Home Services

Our prescreened and state-qualified host homes are a great environment to meet a client's individualized needs and can provide round-the-clock support.

In a host home setting, trained providers welcome individuals with disabilities into their homes, making them a part of their family.

Host Home Providers receive guidance and assistance from Spectrum's supervisory staff. Our staff frequently monitors host homes, including conducting unannounced home visits. In addition, we run a background check on every household member over the age of 18.

Where We Serve

Spectrum serves adults with intellectual and developmental disabilities in the following counties: Adams, Arapahoe, Boulder, Broomfield, Clear Creek, Denver, Douglas, Gilpin, Jefferson, Larimer, Pueblo, Summit, and Weld.
