

ABOUT US

Our team consists of people from all walks of life, but our one common denominator is our passion for the people we serve. From former case managers, long-time host home providers, to administrators from different sectors of healthcare, our comprehensive team has been curated with the DD community in mind.

We pride ourselves in offering dual support; not only to you or your loved one but also to the providers as well. The success of the people we serve is entirely dependent on a well-rounded team, and we promise always to ensure that the DD community is our epicentre. We want to give so much back to the community that has given so much to us.

The DD community in Colorado is one that we hold dear in our hearts. It's a community that we will gladly and willingly advocate for and will fight fiercely for. It is a community that we here at Helping Hand Providers are incredibly proud of.
