

HOST HOME

You deserve the best support. We're here to help.

Choosing the right home is a big decision. You want to know you'll be cared for, encouraged, and cherished. AbleLight's Host Home program provides all that and more.

What are Host Homes?

Host Homes connect people with developmental disabilities to caring families in the community who open their homes to provide a safe, supportive, and loving environment. This unique living arrangement goes beyond providing a place to live, it creates meaningful relationships and a sense of belonging that fosters independence and well-being.

Host Home Providers offer a place to call home and personalized support tailored to your unique needs, such as:

- Assisting with daily tasks like meals, personal hygiene, shopping, and transportation
- Providing companionship and encouraging social connections
- Supporting participation in community activities and social events
- Helping with routine medical needs, including medication management and medical appointments
- Work with AbleLight to ensure all care needs are met

How Does It Work?

1. A thorough, personalized matching process carefully pairs individuals with families who share similar interests, values, and goals, ensuring the best fit socially, culturally, linguistically, and spiritually.
2. Providers and individuals receive ongoing training, resources, and 24/7 support from AbleLight, creating a nurturing environment that fosters growth, independence, and lasting relationships.

AbleLight
Illuminating Abilities. Brightening Communities

AbleLight is a nonprofit, national leader in providing life-changing services that empower people with developmental disabilities to thrive. Guided by Christian love and a 120+ year commitment to our mission, we provide individualized support that promotes independence and inclusion, enabling people to flourish in their communities. AbleLight's programs ensure safe housing, reduce isolation, support employment goals, and promote health and wellness.
