

FAMILY CAREGIVER

You want the best for your loved one. We're here to help.

At AbleLight, we understand that sometimes the best place for a person with developmental disabilities is at home, surrounded by the love and care of their own family. The Family Caregiver program empowers families to deliver exceptional care in a familiar, loving environment, all while receiving the resources and support they need to thrive.

What is the Family Caregiver program?

The Family Caregiver program allows a family member (such as parents, siblings, or other relatives) to become the official, contracted caregiver for their loved ones with developmental disabilities. As a caregiver, you provide the care and support your family member needs, while also receiving compensation, training, and assistance to ensure the experience is fulfilling and sustainable for you both.

Here's how it works:

- ✓ **Care tailored to your loved one's needs:** Caregivers assist with daily tasks such as meals, personal hygiene, transportation, and medical appointments while fostering social connections and participation in the community.
- ✓ **Compensation for caregiving:** Receive payment for the care you provide, helping to ease financial concerns so you can focus on what matters most.
- ✓ **Comprehensive support:** With ongoing training and 24/7 assistance, you'll have the confidence and resources to navigate your role as a caregiver.
